1. Introduction

- Hi! My name is ... and I work at ... with ... [traffic safety research]
- I work in a research project called where we investigate traffic accidents
- The project is a
- We investigate traffic accidents to learn more about them and their causes
- This will lead to better cars, roads and hospital care
- I'm calling you because your car has been involved in a traffic accident, is that correct?
- Were you the driver? As part of our investigations, we try to interview as many drivers as possible
- Is it OK if I ask you some questions? It usually takes about ... minutes. We can
 make an appointment later if now is not a good time
- Participation is voluntary
- Questionnaire, same questions to everyone
- Personal information is treated confidentially and all information is made anonymous before the investigation is finished, i.e. we delete all names, registration numbers, telephone numbers etc
- We do not cooperate with the police or insurance companies and information is not transferred to them
- We are only interested in things that will help us make better cars, roads and improve medical care, the legal side is not interesting to us

• How do you feel today? (personal injuries, if any)
